SHOCKWAVE CHOICE

Because every shop is different, the exclusive SHOCKWAVE package is available on two of Rotary's most legendary products: the two-post product family and the inground Smartlift®, giving you even more options for increased speed and productivity.

Shown: SL210X
10,000 lbs. (4,535 kg) capacity inground lift

Shown: SPOA10X
10,000 lbs. (4,535 kg) capacity asymmetrical lift

Shown: SP010X
10,000 lbs. (4,535 kg)
capacity symmetrical lift

Shown: SP012X
12,000 lbs. (5,443 kg) capacity symmetrical lift

SHOCKWAVE RETURN

Only Shockwave Equipped lifts give you the tools you need to boost bay productivity and immediately increase your shop's number of service tickets per bay. Here is just one example:

SHOCKWAVE Equipped ROI "Dollarizer" for Lifts

Number of Shop Bays with a Lift	Number of Shop Job Tickets Per Day	Time Savings from Up / Down Cycle Lift Speed (sec.)	Up / Down Weekly Shop Time Savings (hrs.)	Additional Number of Weekly Shop Projects	Additional Yearly Incremental Shop Profit from Shockwave	Payback in Days for Incremental Cost of a Shockwave Lift
1	11	55	1	1	\$3,259	118

Study based on a 1 bay shop working 40 hrs per week per bay. 11 daily shop tickets with an average ticket revenue of \$98.00. Data from a 2011 Time & Motion study of 1000 vehicles being serviced or repaired in multiple repair shops and dealerships.

SHOCKWAVE™

INTRODUCING THE WORLD'S FASTEST LIFT

Shockwave Equipped Rotary Lifts come standard with the SPEED, CHOICE & RETURN on investment that will help you achieve your goals of greater technician productivity and higher profits.

Designed specifically for bays where service speed is paramount, Shockwave Equipped lifts are the fastest in the world; helping you keep step with the ever changing demands in the vehicle service industry.

This innovative, industry changing technology is only available from Rotary, the world's most trusted lift.

Motion sensor turns laser on and off for longer life.

SPOTTING A VEHICLE ISN'T ALWAYS EASY. THE PATENT PENDING SPOTLINE LASER SYSTEM HELPS CENTER CARS IN THE BAY QUICKLY AND ACCURATELY THE FIRST TIME.

Greatly reduces spotting time by shooting a green laser line down the center of the bay and on to the vehicle's hood and dash

When you center the vehicle on the line, you're right where you need to be for a quick lift.

Spotline™ motion activated laser helps spot vehicles the first time

Equipped with pads, arms or our new pad / arm hybrid

ONLY SHOCKWAVE EQUIPPED LIFTS GIVE YOU A CHOICE OF LIFT SUPERSTRUCTURES TO MATCH YOUR SHOP'S NEEDS.

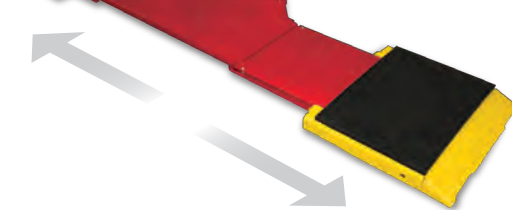

EXCLUSIVE PATENT PENDING PAD / ARM HYBRID combines a front pad for easy spotting and three-stage rear arms for versatility.

7,000 lbs. lifting capacity (3,175 kg)
Hybrid superstructure is primarily for unbody vehicles and select frame vehicles.

Hybrid pad shown with optional inner arm kit. Comes complete with various adapters.
Part #N9110

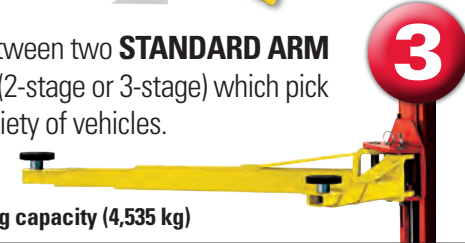

2 Ultra low profile **MOVABLE PAD** slides easily into place for lifting unbody vehicles
7,000 lbs. lifting capacity (3,175 kg)

Or choose between two **STANDARD ARM PACKAGES** (2-stage or 3-stage) which pick up a wide variety of vehicles.

10,000 lbs. lifting capacity (4,535 kg)

SHOCKWAVE SPEED

DC power reduces operating cost

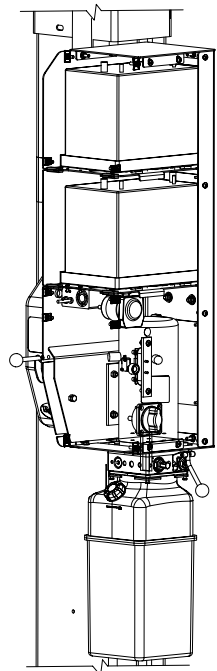

SHOCKWAVE'S PATENT PENDING DC POWER SYSTEM GIVES YOU LOWER COST; MORE RELIABLE OPERATION.

Uses two standard Group 24 batteries (Batteries not included)

Its built in battery charger uses 110v power, eliminating the need for expensive 220v wiring:

An installation savings of 80% or more!

Your Shockwave Equipped lift will even operate during a power outage

DC power is environmentally friendly

2X faster rise and descent

SHOCKWAVE'S EARTH SHATTERING SPEED IS ACHIEVED THROUGH THE COMBINATION OF ITS PATENT PENDING DC POWER SYSTEM AND OTHER TECH FRIENDLY FEATURES.

User friendly features such as SPOTLINE and your choice of superstructures gets vehicles in the bay and in the air and down faster than any other lift.

Its 25 second rise and 19 second descent is TWICE as fast as other standard lifts!

Speeds based on weight of vehicle

More productivity makes happier technicians

SHOCKWAVE'S INCREASED RISE HEIGHT PROVIDES ADDITIONAL HEADROOM AND WORKSPACE FOR YOUR TECHNICIANS.

Shockwave Equipped 2-post lifts provide an additional 3" (7.5cm) of rise.

MORE WORKSPACE

Shown: SPOA10X
7,000 lbs. (3,175kg)
capacity asymmetrical lift

The world class speed and available options of a Shockwave Equipped lift are a game changer for your business and technicians. You'll see immediate increases in productivity and revenue that will help you retain your best employees.

Reduces crawling on dirty floors.

"It's the best lift I've ever used. It's quicker, it's more efficient, and it operates very smoothly. The technicians love these lifts. I wouldn't even consider putting anything else in."
